Week 5: Maths homework due in 22nd May 2017

Investigations

Only choose one task this week and think carefully about how to present your work!

BRONZE

Chicken and Sheep

A farmer looks across a field of chicken and sheep. He counts 10 heads and 28 legs. How many chicken and sheep does he have?

SILVER

On the planet Viv there are two sorts of creatures. The Zogs have 3 legs and the Zeps have 7 legs.

The great planetary explorer Nico, who first discovered the planet, saw a crowd of Zogs and Zeps. He managed to see that there was more than one of each kind of creature before they saw him. Suddenly they all rolled over onto their backs and put their legs in the air. He counted 52 legs. How many Zogs and how many Zeps were there?

GOLD

Ross collects lizards, beetles and worms. He has more worms than lizards and beetles together. Altogether in the collection there are twelve heads and twenty-six legs. How many lizards does Ross have?
